CMS: WordPress Theme Customization and Development
Other Skills: Machine Learning | Embedded Systems | Computer-Aided Design (CAD)

RECENT PROJECTS

Business Website Design & Development   Mar 2025 - Apr 2025

M Ahmed Engineering   🔗 mahmedengineering.com

- **What I have done?** Designed and developed a user-friendly, responsive website for an Appliance Sales, Repair, and Installation Service Center, improving online customer engagement and increasing service requests by 25%.
- **How I have Done:?** Gathered requirements, designed wireframes in Figma, and built the website using WordPress Elementor Page Builder. Integrated booking functionality and optimized for performance and SEO. Ensured a seamless user experience across devices through responsive design and testing.

Personal Portfolio Website Development   Feb 2025

My Personal Portfolio Website   🔗 asifulpranto.com

- **What I have done?** Developed a responsive portfolio website to showcase my skills and projects. Enhanced user experience through intuitive navigation and clear presentation of work.
- **How I have Done:?** Utilized WordPress with Elementor along with custom CSS and JavaScript to create layouts and responsive designs. Integrated performance optimization and SEO best practices to improve load times and visibility.

Landing Page Development & Customization   May 2025

Gaming Console Landing Page   🔗 ConsoleLandingPage

- **What I have done?** Developed an interactive and attractive Landing page of a gaming console of three different color variant as personal project.
- **How I have Done:?** Used Elementor free version with custom CSS and vanilla JavaScript to develop and customize the page with animation and interactivity.

RELEVENT COURSES

- Meta Front-End Developer Professional Certificate (**Offered by Meta**) - **Coursera**
- Become a WordPress Developer: Unlocking Power With Code (**By Brad Schiff**) - **Udemy**
- Machine Learning and Deep Learning Specialization (**Offered by DeepLearining.AI) - Coursera**

RESEARCH & PUBLICATION

- **Predicting the Effectiveness of Air Curtains in Confining Heat and Smoke Propagation in Informal Shopping Malls Using Supervised Machine Learning.   (Doi: 10.2139/ssrn.4857920)**

  Published in: SSRN 14th International Conference on Mechanical Engineering (ICME 2023).

EDUCATION

B. Sc. in Mechanical Engineering   Jun 2019 - Dec 2024

Ahsanullah University of Science and Technology   Dhaka, Bangladesh
CGPA: 3.199 out of 4.00
